EMPOWERMENT Ancestral Series Sub-Set

Offerings from this Ancestral Series sub-set are designed empower, activate, and fortify your Ancestral Dead. They are best used on happy and well adjusted relations and by the esoterically experienced or adventurous. These items provide vim and vigor to the deceased, extra energy that can be used to execute requests based on your desired aims, or offer more vigilant protection when you or your loved ones are under siege.

You may find the Patrilineal side of your family or male Ancestry is most activated.

The Empowerment sub-set can be paired with Channel to strengthen the Dead's ability to communicate, but will also make them more willful. Avoid pairing with Comfort, due to its sedating nature.

Ancestral Empowerment Oil: Anoint images or names of specific dead, grave stones, or urns to feed them additional energy and activate their presence. Wear on oneself to encourage your Ancestors to walk with you, or act through you, in times of need. Apply to the items of loved ones in need of protection and pray to the Ancestors for desired outcomes. Draw strength and determination from Ancestral reserves.

Ancestral Empowerment Incense: Burn after calling the Ancestors to ritual to empower them to act and attend with full force. Bathe implements of power and weapons for their use on the other side. Smoke yourself to draw Ancestral power and promote your strongest Ancestors to attend your needs.

Note that the incense is depicted with a smoke or fire symbol after the sub-set name to differentiate it from the powder. The formula is self-igniting, meaning it can be formed into a mound or sigil shape on a heat-proof surface and lit directly.

Ancestral Empowerment Powder: Mix into the dirt below the top soil at a gravesite to empower specific deceased. Mix into cremains or grave dirt you've harvested. Use as an ingredient in talismans and reliquaries designed for like Ancestral purpose. Use to dress candles.

Ancestral Empowerment Tincture: Use to attune to the strongest among your Ancestry and encourage them to walk with and through you. May promote possession.

Post-Op: Washing and changing clothes may be necessary after heavy Ancestral work to maintain personal vitality and disconnect from the Deadrealms. Pay close attention to dreams and omens following Ancestral ritual. Banish and clear the space if need be, or perform operations outdoors.
